* **Customization** is central to working with any program. Without customization, there is no Photoshop. The program offers endless customization options that are available via menus (shown in Figure 3.1), toolbars, panels, options menus, and windows. Once you've mastered the basic menu commands, you can drill down into each feature and tool to access settings, effects, and advanced options to change layer options, tools, and other configurations. You can add multiple overlapping documents or image layers and groups and arrange those layers in folders for ease of viewing and to categorize documents for organization and retrieval. You can also export them to other file formats and import to other programs. You can work with several types of image files and Photoshop also includes several canvas options for working with image files.

* Reducing noise. Noise is also called grain. It can be used to effect a soft look to photos by desaturating them, or brightening them by desaturating them. It can also be used in image retouching to blur the image. * Sharpening images. Sharpening increases contrast by applying a lowpass filter in order to bring out the details in an image. It can be performed using the Sharpen filter on the Enhance menu. * Removing blemishes. This is a useful tool when working with medical images as it helps remove lesions and other anomalies. * Creating textures. This is a powerful tool for creating textures, such as wood, paper, metals, leather, stones, skin, and fur. * Blur image. You can blur an image to add a dreamy, soft feel to it. * Smudging. This is a useful tool when making textiles, paintings, and portraits. It helps smooth out the brush strokes, leaving them in the artist's hand, or the feel of the brush instead of on the paper. Brushes | A Brush --- | --- Select the Brush tool. The Brush tool appears in the toolbox and is activated by clicking on the brush icon. The Brush tool has a number of different sized brushes, such as the 100 Brush, the 10 Brush, the 20 Brush, the 50 Brush, and the 100 Brush. Each of these brushes has a unique look and feel and allows you to create various types of strokes. The Default Brush The Default Brush is the default brush. It has a double-ended hook. This brush creates soft, light strokes. The 10 Brush The 10 Brush creates light strokes. It creates a thin and easily visible line. This brush will be used for outlining photos, drawing, and doodling. The 50 Brush The 50 Brush creates thick, bold strokes. It is used to create textures, such as leather, paper, and metal. The 100 Brush The 100 Brush creates a thick, bold stroke. It is the best brush to use when creating textures. The 100 Brush The 10 Brush The brush, in this mode

What's New In?

Nintendo has teased a new version of the Family Computer, called the Super Famicom, scheduled for a 2013 release in Japan. The new version of the console, like its predecessor, will support 16-bit and 32-bit processing, offer online play through the services of Nintaco, support the introduction of DVD and CD disks, and include the Super Game Boy accessory. In a press release, Nintendo president Satoru Iwata said of the new system: "Thanks to the recent advancements in technology, Super Famicom will mark the transition to a new era, ushering in a new age of family entertainment. Rather than just supplementing what was available with our current consoles, we're creating a new game platform that will provide a completely new experience." Nintendo did not elaborate on what the new platform would entail, though it's speculated that a new version of the Nintendo Wii will run on the 16-bit CPU and 32-bit GPU. The new Super Famicom is expected to be released in Japan in 2013.Pages Sunday, 10 August 2012 Treat Yo Self! I've been wanting to get the two last sets of Stampin Up accessories but I don't quite have the big enough wallet to get all the stamping goodies I need. The money I saved on the items was put toward my Birthday, Anniversary and Wedding so I was thinking of getting these sets but have a feeling they might come in handy now so I did some searching and found this set! This is the handmade mocca set, a perfect sized accessory bag. I love the shape of this bag and the colour block print. I have seen them sell for $36 at my local store so this set would save me $2 in my wallet! Next up is the mini tool box. In all honesty, it could have been a set in it's own but I loved this little mini tool box. I used to use a small brush box that sat on my desk but it seemed bigger than it was. I didn't like having a brush that was too big for it's purpose. My all time favourite tool box is still my EK Success tool box I bought back in college. If I could pick up something from my travels anywhere in the world it would be an EK Success tool box. The difference between this mini tool box and my EK Success one is the price. This set of tools costs only $5.
