Biology - Grade VIII - Help Biology - Grade VIII - Problem ReportsComparative study of the topical effects of three calcium-binding agents on human oral epithelial cells. The use of calcium-binding agents in clinical practice has increased considerably. As evidence accumulates of the potential for adverse effects at the ocular surface, this study examines the effects of three calcium-binding agents, tolvaptan (TL

What's New in the?

Biology - Grade VIII is a java based application with 6 different levels of difficulty. The levels have been designed to cover all topics related to biology at the secondary school level. At each level the questions contain from 2 to 6 steps, so that the user can choose the appropriate difficulty level. As students progress they will find more challenging questions. The user is able to input the score of each question and this is displayed in the form of percentage, showing the user which questions they got right. Also a grade total is shown. All questions have a downloadable answer key, which is available for anyone to check their answers. Biology - Grade VIII runs on Windows, Linux and Mac OS X, and has been designed as a java based application, using a "Tetris" type

scoring system. Biology - Grade VIII is free software. Version History: Version 1.0 - 9/07/2003
