New Features in v2.0: Improved video quality New automatic update mechanism Better searching Can now be set to automatically pause/resume/abort downloads As you are likely to know, a good way to become successful in the world of e-learning is to get expert advice. Fortunately, there are hundreds of trainers who are willing to share their knowledge with others, by charging a modest fee, of course. And, there is the additional benefit of being able to download their content for offline viewing. With Lynda Downloader, you can do both. There is no doubt that Lynda is a great website, for many reasons. It has over 500 online courses on almost every subject you can think of. But, like most websites, it limits the number of people who can access its content, and therefore, unless you are a subscriber to Lynda's service, you are probably out of luck. However, Lynda Downloader means that you can access and learn from these lessons at your leisure and on your own terms. Using Lynda Downloader is easy. Once you have installed it on your computer, you simply need to have an active Lynda subscription. Then, using the website, you select the course you wish to download. When you open it, you'll see a list of the available chapters. Simply select the ones that you want to download and then click 'Download Now'. Lynda Downloader automatically stores the selected content on your computer. You can then view them as many times as you want. In terms of compatibility, the tool works with almost every operating system and browser. And, because it runs in the background, it doesn't consume any system resources. The finished product looks good and is well organized. It is easy to work with and helps you to save time and learn effectively. Lynda Downloader is well worth a try. It's a useful tool that has been designed to meet the needs of many e-learners, who know that they

Lynda Downloader is a professional solution to get you unlimited access to Lynda.com videos. You can download videos from dozens of online courses and take them offline to view and watch them wherever and whenever. Lynda.com is the leading online learning platform that covers a wide range of programming, design, business and marketing topics. They provide over 1,000 video tutorials from the most well-known teachers in the industry. Whether you are a beginner, a web developer or a power user, they have something to offer you. The “Lynda” part of Lynda Downloader is for the non-commercial use only, as a result, the paid courses and any paid course not available in free versions are not compatible with the app. This course is from Lynda.com, an online learning platform for technology professionals that offers a diverse collection of free courses. Subtitles: English (UK) Video: 1280x720p Audio: AAC 8 kHz 44100Hz stereo Filesize: 5.9 GB Here’s where Lynda Downloader comes into play. Providing you have an active Lynda subscription, this little tool enables you to grab videos from the website and store them on your computer so you can view them offline. It’s a lightweight tool that doesn’t burden your computer in any way. Lynda Downloader is both easy to install and use. Right after you launch it, it requests your Lynda account username and password and once you’re logged in, you’re ‘good to download’. All you have to do is enter the URL of the course you want to download, select the chapters and click save. The selected content is automatically downloaded and saved in the folder you assign. Lynda Downloader allows you to choose whether you want to download the entire course or just the selected chapters, this way, you get exactly what you need. Which and how many chapters you select does not affect the download order. They are all stored in the same sequence in which they are presented on the website. If the download process is tampering with your Internet speed in any way or you feel that some content has a higher priority than other, Lynda Downloader allows you to stop or pause the downloads. The application saves the content on your computer in MP4 format with a resolution of 960x540 which means that you do get a high quality video tutorial. In

Rapportive Utility software Synchronizes contact info, phone numbers, and other relevant information Rapportive is a tool that gives you the ability to keep in touch with a person’s contacts without wasting your time. This is achieved by syncing the contact info, phone numbers, and other relevant information from a person’s social networks and email accounts with Rapportive. The synchronization with social networks is very easy, it only requires a person to enable their social networks and be logged into their account. This way, the applications learns the person’s contact information and displays it on Rapportive. When you receive a new message on your mobile phone, you can switch to Rapportive and, if a contact has an app that supports the social network you’re using, it will appear in your message and you can tap to read the message. You also get a similar process for email, when you receive a new email from a person you can open Rapportive and review the email, if the contact has an email app that supports the social network you’re using, Rapportive will display the contact’s email address in the email and you can tap to read it. Rapportive is built to display all the contact information you have but you can also select what you want to display. You can add and select from your contact’s phone numbers, email addresses, and social networks. The application has a very clean, fresh look and you can easily perform the required actions from your contact cards. The application is a reliable and useful tool to access all the information from your contacts, this way, you will always be informed of all the information you need to help you make a quick decision when you receive a new message. description: This article is written by Jonathan Beese and Nick Butcher. Product News Overview Imagine the time you or your staff spend researching for your next project. Many of us spend the majority of the time doing this, only to find that you have no idea what your project needs. You may have the general idea, but you don’t have the details. In order to improve your project output, then it’s critical that you get the details right. If you rely on your memory, your project may be a success or a failure. You may create an

environment that is unstructured, or you may create an environment that is perfectly structured. So, you need to have an effective project management tool. You need to have a tool that can help you keep your projects on track, and will help you plan them effectively. You also need to have an effective time management tool.
